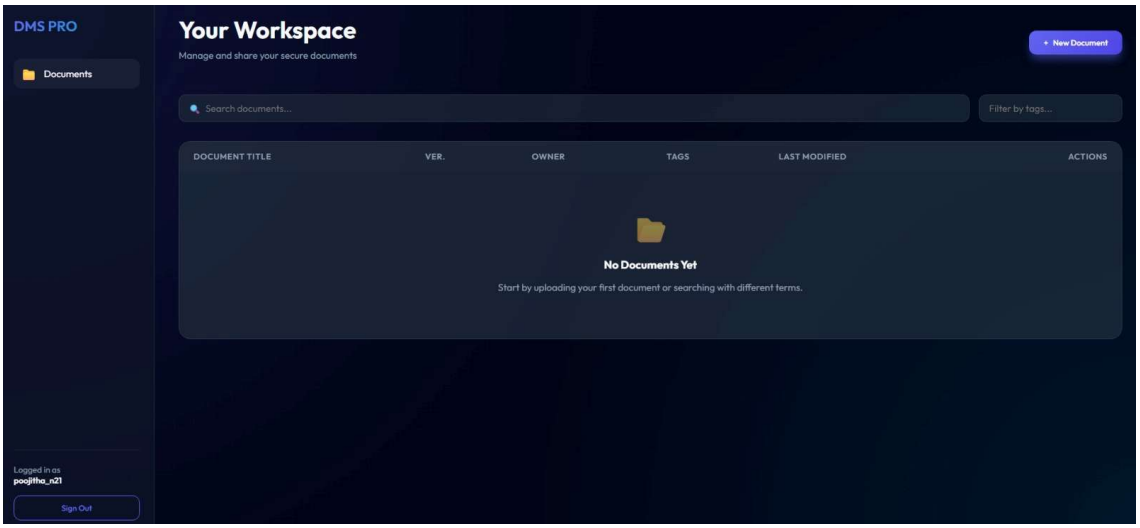
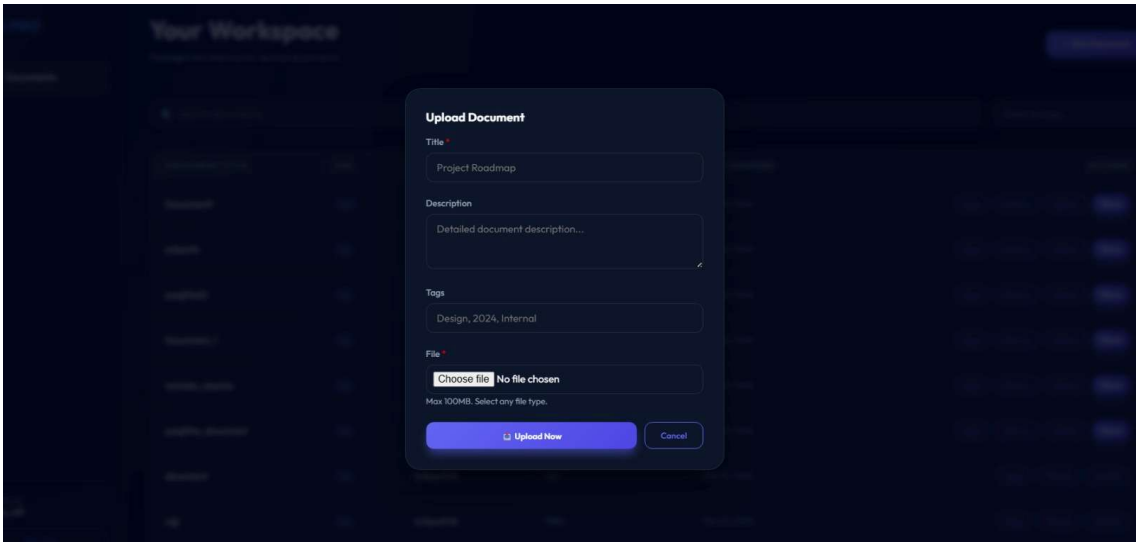
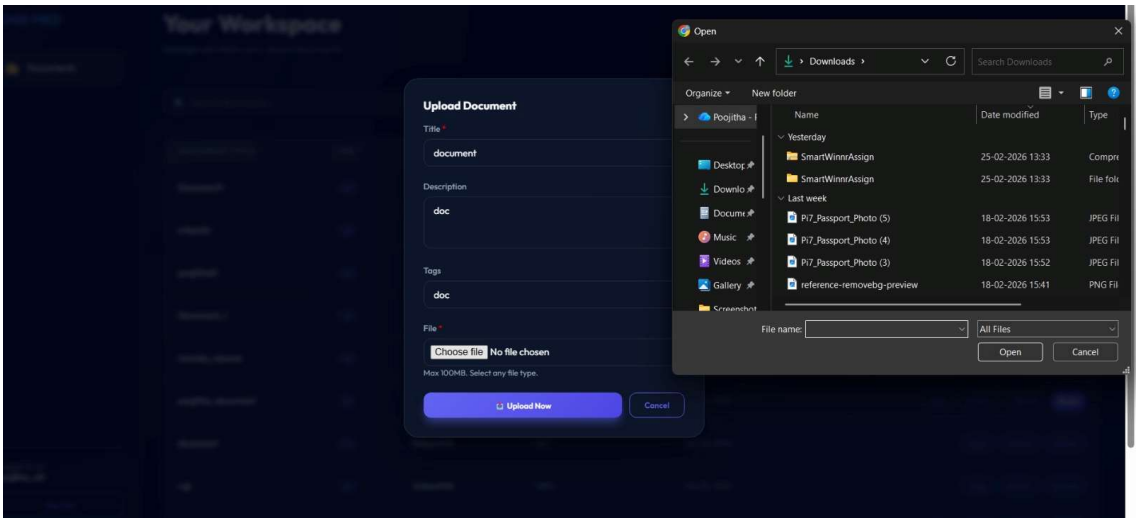
Empty Workspace after login

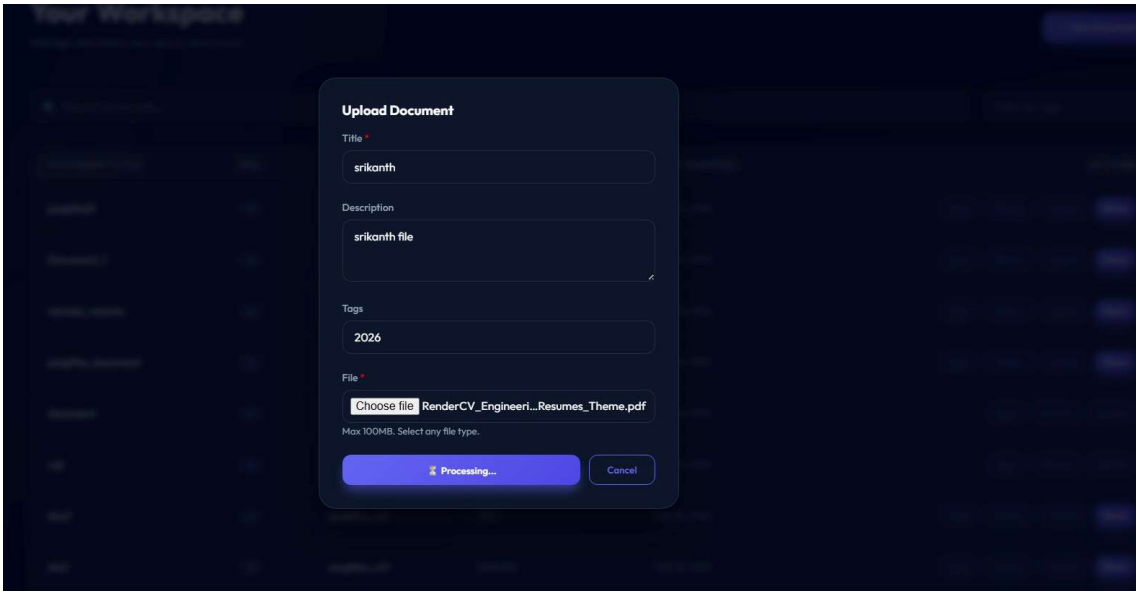


adding new document

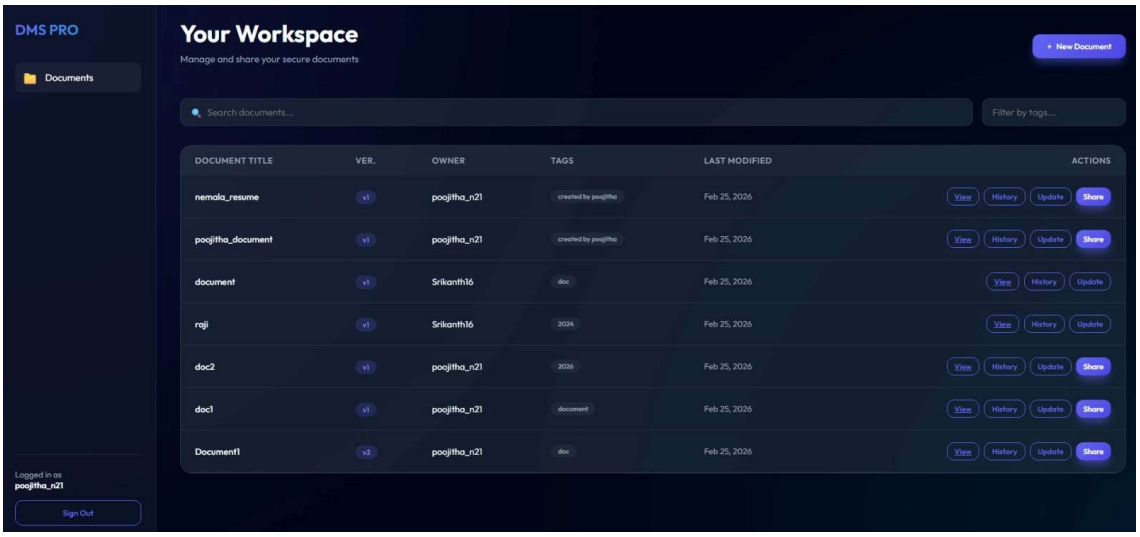




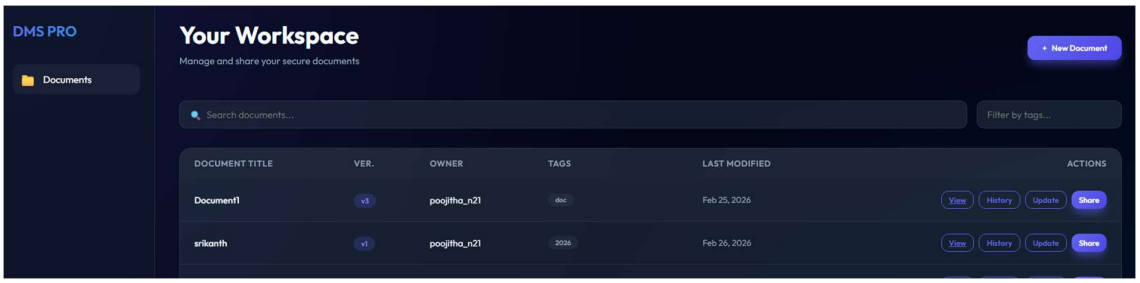
After choosing file it is processing to upload the file in my workspace



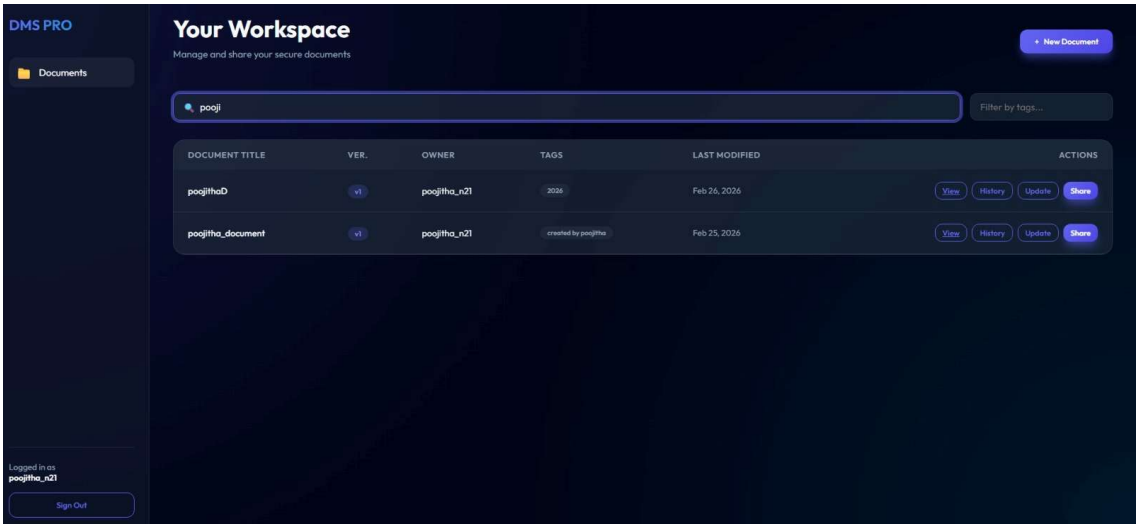
After Uploading documents

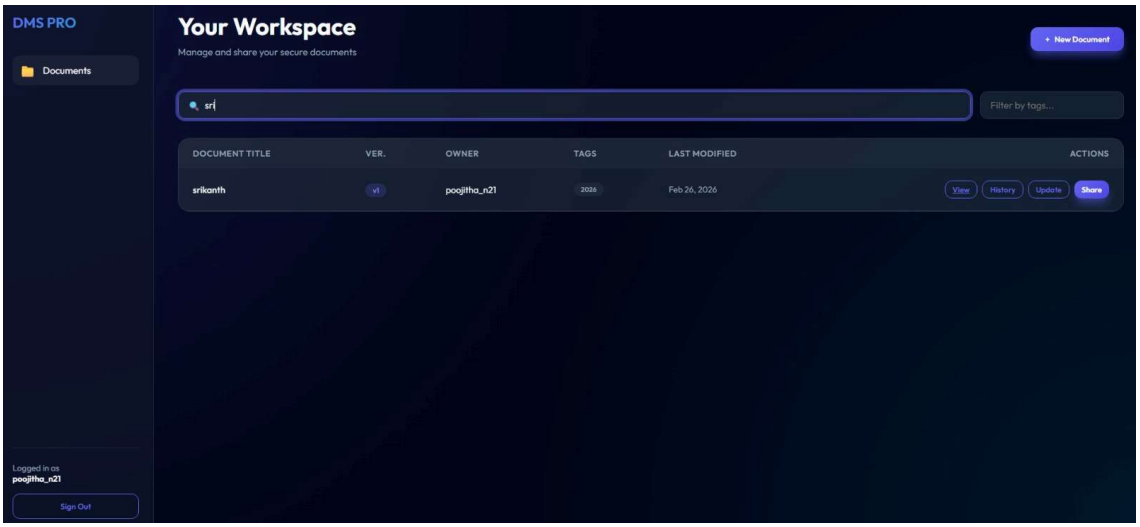


Search bar

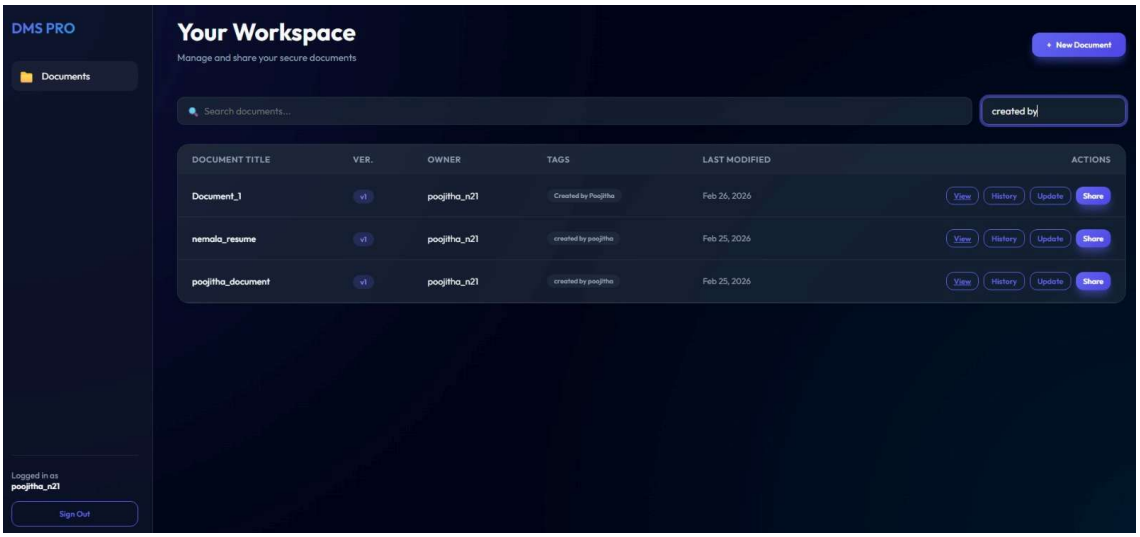


Searching documents based on keywords

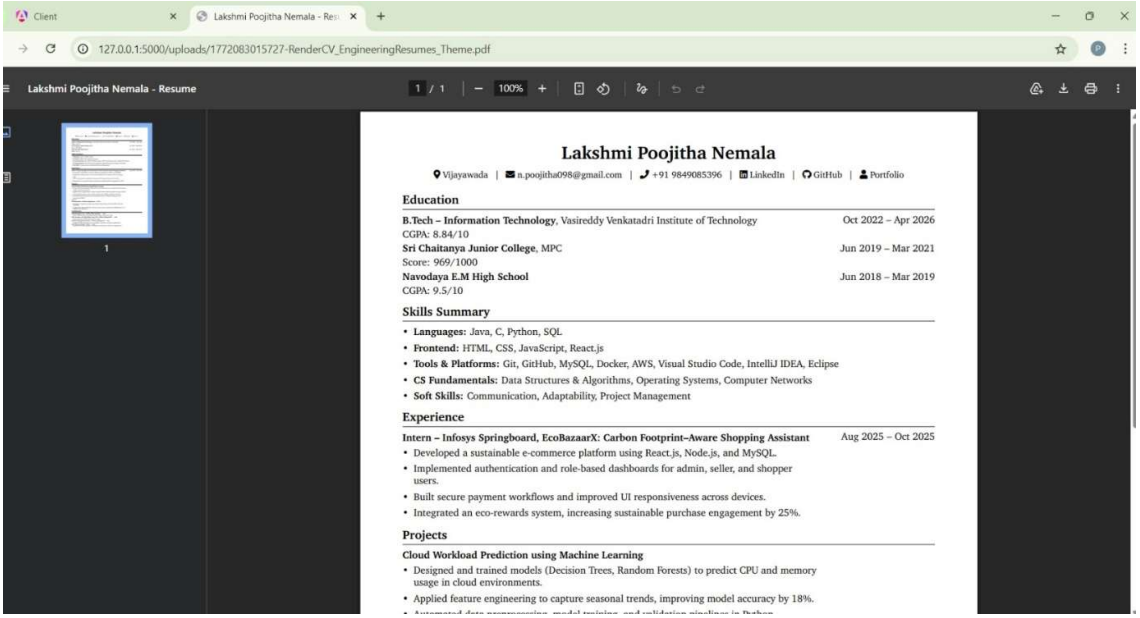




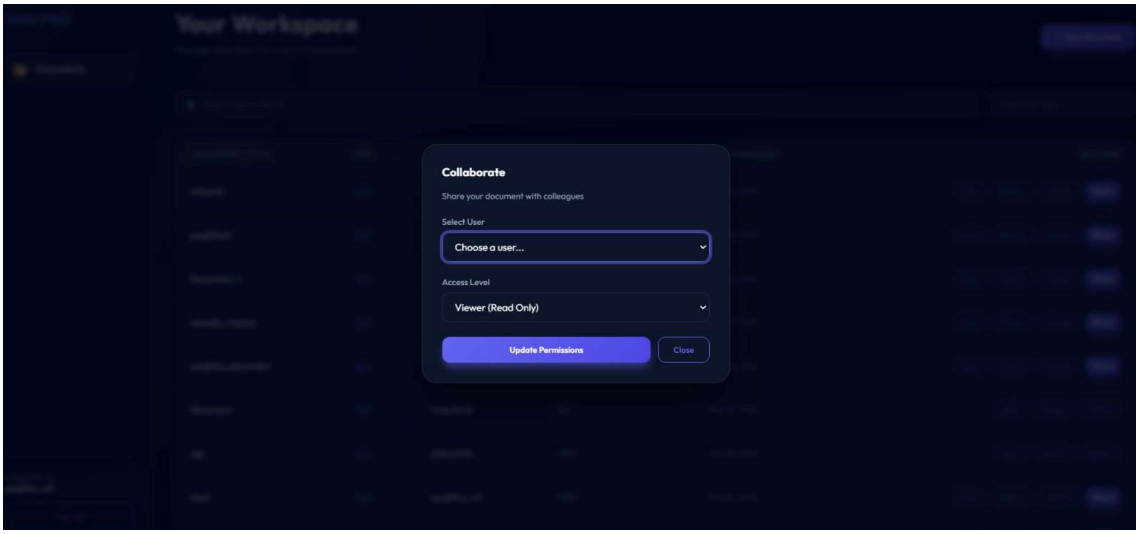
Searching documents based on tags

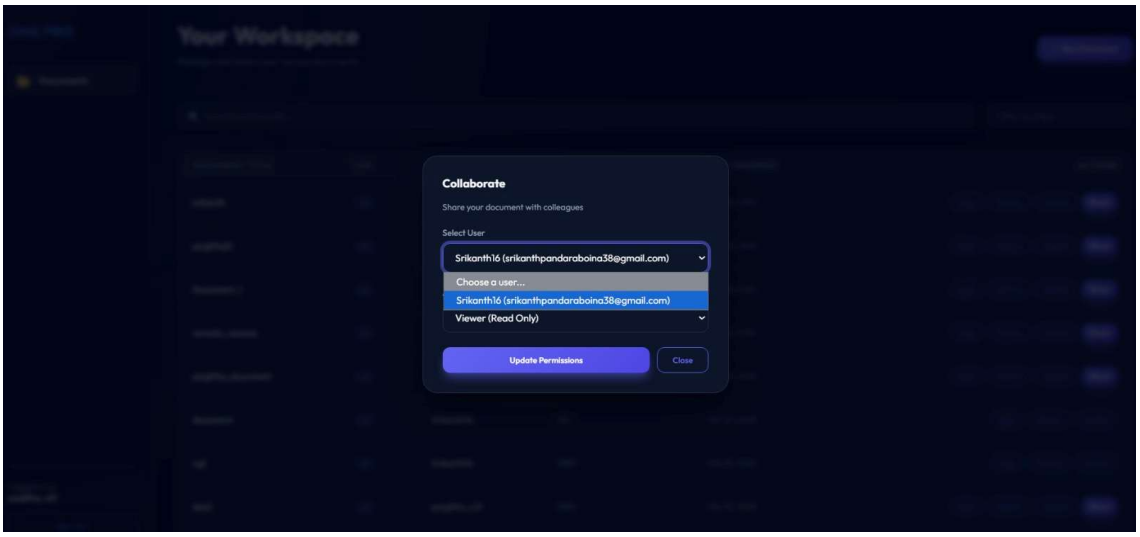


After clicking view the document

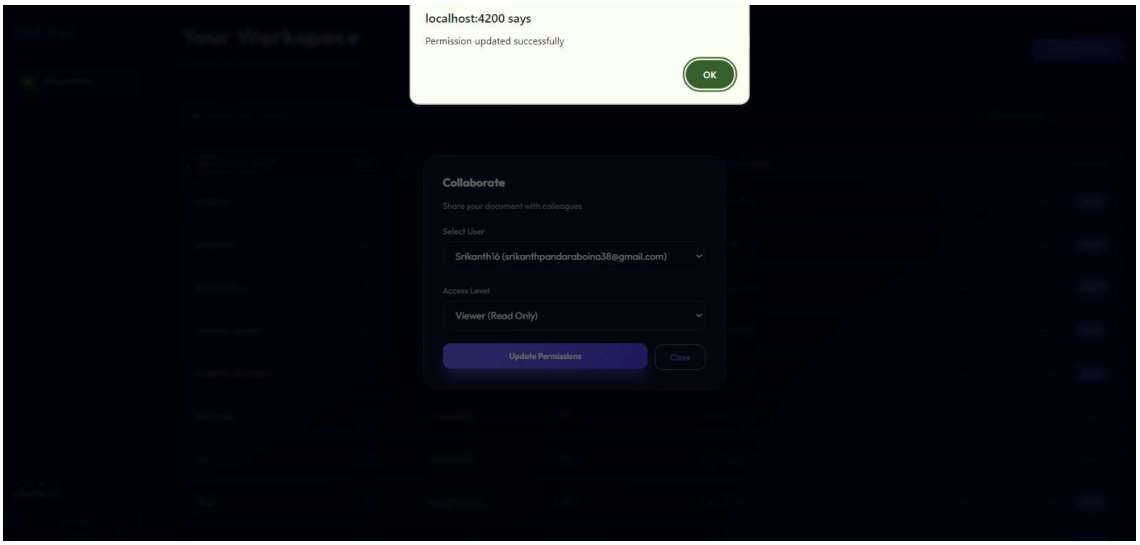


Sharing the document to other users and we can update the permissions for viewing / editing documents

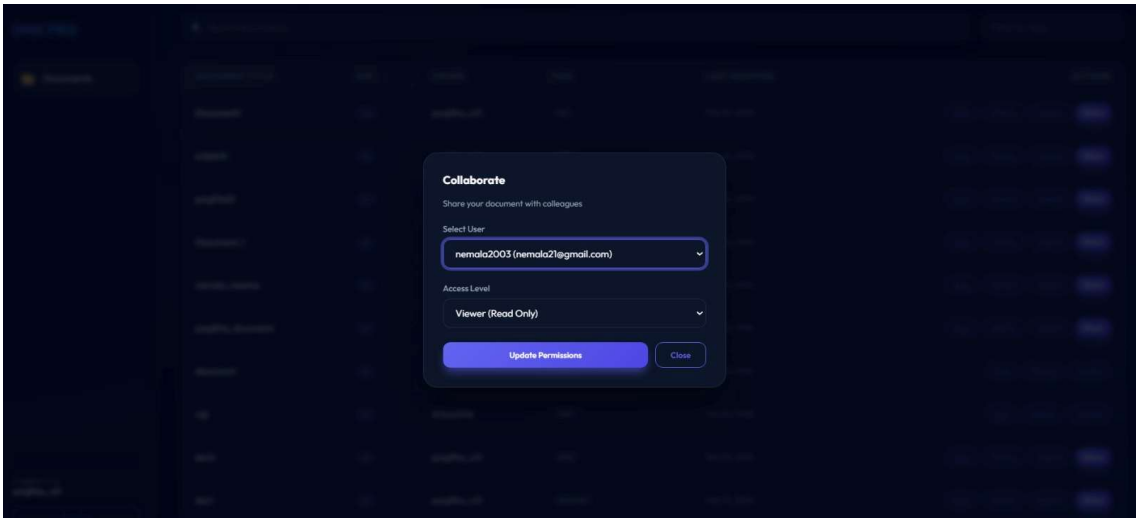




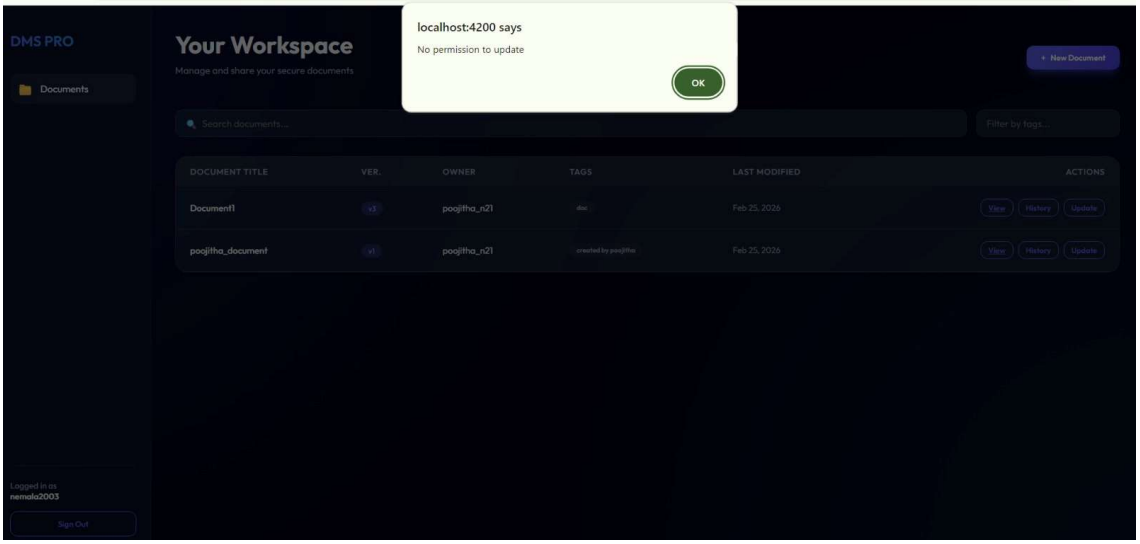
After updating permission



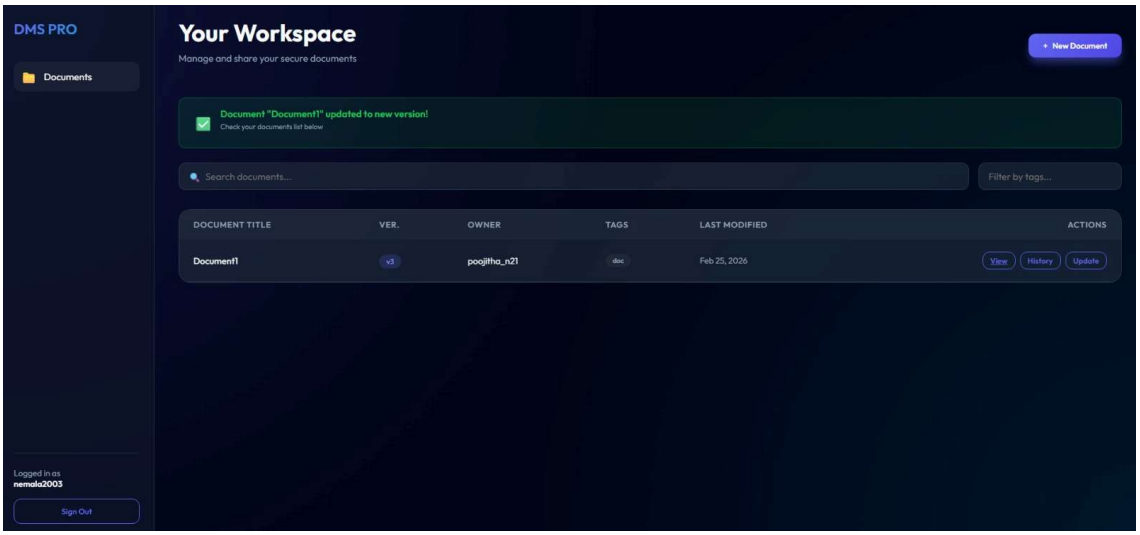
After updating the permission to view and after sharing

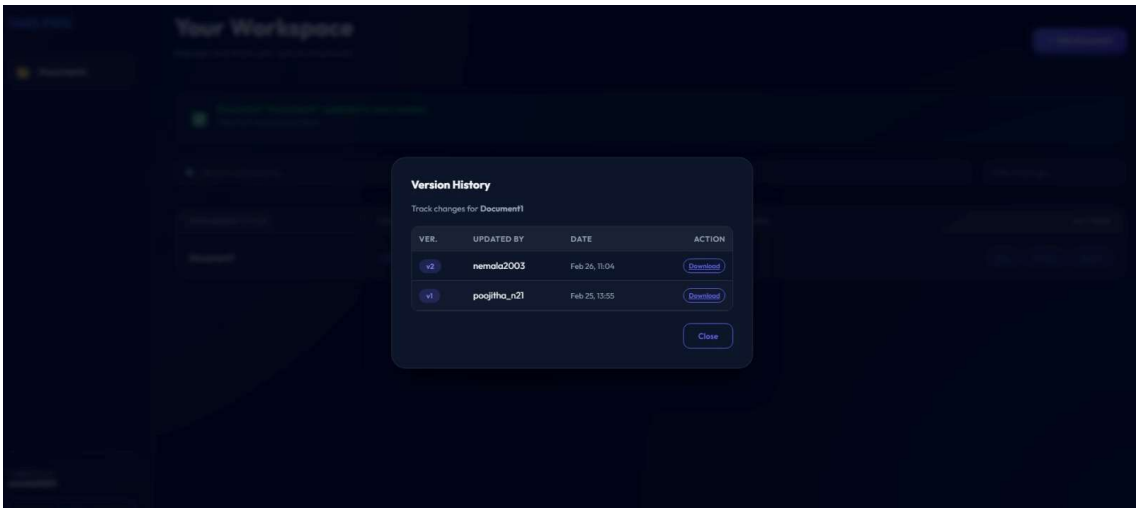


If the other user tries to edit the shared file



After user wants to update the file then he/ she updates to new version





We can track the changes for documents (Version History) and we can download the updated or previous document through download option and we can see date and time when the document was uploaded
